Re: Notice of Ex Parte Presentation
Improving 911 Reliability, PS Docket No. 13-75

Dear Ms. Dortch:

T-Mobile USA, Inc.¹ (“T-Mobile”) files this letter to reflect a recent communication Shellie Blakeney and Eric Hagerson of T-Mobile had with David Plotinsky, Jennifer Holtz, Guy Benson and John Healy (via teleconference) of the Public Safety and Homeland Security Bureau regarding T-Mobile’s reply comments dated August 13, 2018, filed in the above-referenced proceeding.²

Participants discussed T-Mobile’s position in its reply comments about the definition of a “911 covered service provider.” We reiterated our position that the existing 911 reliability rules are effective, that modifications to the rules are unnecessary at this time, and that there is no basis for expanding the scope of the definition for “911 covered service provider” to apply to additional entities. In addition, we noted the cooperative efforts underway by multiple stakeholders to improve the PSAP notification process and encouraged the FCC to continue its support of those activities.

Pursuant to Section 1.1206 of the Commission’s rules, an electronic copy of this letter is being filed in the above-referenced docket. If you have any questions, please contact the undersigned.

¹ T-Mobile USA, Inc. is a wholly-owned subsidiary of T-Mobile US, Inc., a publicly traded company.
